

“Meeting across borders”
NORDIC “ALLKONSTEVERK” - KIK 2019
Fuglsøcentret Denmark 24-28/6

Dear friends in the east, west, north and south.

This year's theme at the KIK festival is "To meet across borders". We will through music, dance, stories get to know each other's language, history, culture in a festival where boundaries are not an obstacle for us to be together across loins and background. At this third festival in Denmark, we will take all what we have experienced through our journey from "Midsummer" in Sweden to "Peer Gynt" in Norway and now in H.C. Andersen's Denmark we will have some celebration days where we can rejoice to meet each other once again to and create an artistic work together.

There will be many different workshops, from salsa to hip hop, folk dance to rock'n roll. We will create with words and our hands and explore the low water and much, much more

KIK-2019 starts June 24th when we arrive at the Fuglsøcentret in the afternoon and meet for dinner at. 18.00. Then we have a common prelude where we will see a play and sing some of the good old songs that we know since earlier but also our new festival song "Thanks to the Nordic countries".

After an intensive week of joy, party and meetings with old and new friends, we finish the festival Friday the 28th of June in the morning.
